 Portfolio

PROFILE

Results-driven Senior Front-End Developer with **7.6 years of experience** designing, building, and optimizing scalable, responsive, and high-performance web applications. Expertise in **React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5, and Tailwind CSS**, with a strong track record on enterprise-level platforms including **GIS, healthcare, and data-driven applications**. Adept at translating complex requirements into intuitive user interfaces, integrating RESTful APIs, and collaborating across cross-functional teams to deliver business-focused solutions. Available for **immediate joining**.

TECHNICAL SKILLS

- **Frontend Technologies:** HTML5, CSS3, Bootstrap 5, Tailwind CSS, Responsive Design, Cross-Browser Compatibility
- **JavaScript & Libraries:** JavaScript (ES6+), TypeScript, React.js, Redux Toolkit, jQuery, DOM Manipulation
- **Tools & Platforms:** Git, GitHub, REST APIs, Codebase (Project Management), Apache Tomcat
- **Other Technologies:** Codelgniter, Mailchimp, SEO Best Practices, UI/UX Design Principles

PROFESSIONAL EXPERIENCE

Genesys International Corporation Ltd. , UI Developer May 2025 – Mar 2026

- Developed and maintained scalable GIS-based web applications for large-scale municipal data management systems serving 5,000+ daily users.
- Built responsive, accessible UIs using HTML5, CSS3, Bootstrap 5, and JavaScript, reducing UI-related bug reports by 30%.
- Integrated frontend components with REST APIs for real-time geospatial data retrieval across 10+ complex workflows.
- Optimized page performance through code refactoring and asset compression, improving load time by ~35% for high-volume concurrent users.
- Collaborated cross-functionally with GIS, backend, and QA teams to deliver 4 major feature releases on schedule.

Apr 2024 – Apr 2025: Career break – upskilling in React.js (Redux Toolkit, Hooks, performance optimization) and completing NamasteDev React Certification.

Docintosh Technology , UI Developer Dec 2022 – Mar 2024 | Mumbai

- Developed pixel-perfect HTML email templates and PDF layouts using Mailchimp, boosting client campaign open rates by 20%.
- Built interactive web platforms including surveys, quizzes, and polls with real-time DOM updates and smooth animations, increasing user engagement by 40%.
- Created a reusable UI component library in HTML, CSS, JavaScript, and jQuery, reducing development time by 25% across 8+ projects.

- Collaborated with designers and backend teams to successfully deliver 15+ client projects within agreed deadlines.

Softonauts Infotech, Senior UI/UX Developer

Jan 2020 – Nov 2022 | Mumbai

- Designed and developed landing pages, admin panels, and marketing UIs for 5 blockchain platforms and a COVID-19 healthcare platform serving 10,000+ users.
- Implemented SEO best practices – semantic markup, meta optimization, page speed improvements – boosting organic search rankings by 50%.
- Ensured responsive, cross-browser compatibility across Chrome, Firefox, Safari, and Edge for all production platforms.
- Mentored 2 junior developers on UI best practices, code standards, and code review processes.

NextGen Technology, UI Developer

Aug 2016 – Nov 2018 | Pune

- Developed responsive, user-friendly web interfaces for 10+ client projects aligned with modern UX standards and business goals.
- Implemented SEO best practices improving search engine rankings and increasing organic traffic by 30%.
- Ensured cross-browser compatibility across major browsers; collaborated with teams to deliver high-quality UI within deadlines.

PROJECTS

PMC-Pune Municipal Corporation (Genesys International) [↗](#),

HTML5, CSS3, Bootstrap 5, jQuery, JavaScript, Java

- Developed a responsive UI for a GIS-based municipal data management system serving the Pune Municipal Corporation with 50,000+ properties.
- Built modules for property tax, open plots, hoardings, cell towers, and building layout deviations with real-time API data integration.
- Reduced geospatial data load latency by 40% through optimized REST API calls and efficient frontend data handling.

V-Bench – Virtual Benchmarking Platform (Docintosh Technology),

React.js, Redux Toolkit, JavaScript, HTML5, CSS3, Bootstrap 5

- Engineered a single-page application (SPA) using React Router for seamless client-side navigation.
- Implemented centralized state management with Redux Toolkit, improving application scalability and maintainability.
- Integrated REST APIs for dynamic data rendering and real-time content updates across the platform.
- Developed a library of reusable components, forms, and event-driven UI elements to accelerate delivery.

Swiggy Clone – Real-Time Food Ordering App (Personal Project) [↗](#),

React.js, Redux Toolkit, Tailwind CSS, JavaScript

- Built a fully functional food ordering app with live API integration, cart management, and global state handling using Redux Toolkit.
- Achieved ~45% faster rendering performance via lazy loading, code splitting, and component memorization – available on GitHub.

Docintosh – Medical Social Platform (Docintosh Technology) [↗](#),

HTML5, CSS3, Bootstrap 5, JavaScript, jQuery

- Developed a social networking platform for 2,000+ medical professionals featuring research posts, surveys, polls, and quizzes.
- Improved average user session time by 35% through advanced DOM manipulation and interactive UI enhancements using jQuery.

SalivaQuik – COVID-19 Antigen Testing Platform (Softonauts Infotech) [↗](#),

HTML5, CSS3, Bootstrap 4, JavaScript, jQuery, PHP

- Built a responsive, accessible UI for a COVID-19 antigen test product platform targeting a broad non-technical healthcare audience.
- Achieved WCAG 2.1 accessibility compliance with consistent cross-browser rendering across all major browsers and devices.

EDUCATION

Bachelor of Engineering – Computer Science,
North Maharashtra University (NMU), Jalgaon

Jun 2011 – May 2014

CERTIFICATIONS

- **React Developer Certification - NamasteDev.com**
- **Generative AI - Professional Certifications and Continuing Education Units (CEUs)**
- **AI Tools Mastery Workshop – Clapingo** (*Prompt Engineering, AI Workflow Automation, ChatGPT*)
